## Objectives

- Create a network of educational institutions, professional bodies, industry and policymakers with a shared interest in developing talent to meet ESG/ Sustainable Finance data requirements
- Along with other sources, use the network's shared expertise to create a dynamic map of the most pressing skills and training needs, plus a directory of providers

## Deliverables

- Engage bilaterally and potentially conduct roundtables and webinars convening key stakeholders
- Formulate ESG Data Skills Map
  - Mapping of required skills & training
  - Directory of training providers
- Recommendations / Blog post(s)
