## Objectives

To improve definitions and access to forward looking data for financial services, to support and drive efficiency in:

- Stress Testing
- Long-term risk assessments
- Scenario-based prudential regulatory reporting
- Transition finance products

## Deliverables

- Engagement with identified supporters
- White Paper commentary on NGFS outputs on Stress Testing/Climate Scenarios
- Report with Recommendations on what forward looking data is needed for regulatory compliance and how to make the data definitions robust and comparable (as part of a wider report LSEG and OMFIF will launch in Q3/4 2021)
